

MASTERDRIVE®

POWER TRANSMISSION PRODUCTS

Company Profile

Quality, Service & Commitment

www.masterdrives.com

MasterDrive is Quality and Excellence

We are an International Supplier of Power Transmission Products

MasterDrive started in 1998 with a limited line of sheaves, in a small warehouse in Wisconsin. Today we are proud to service the power transmission industry in North America, Latin America and South America with a full line of power transmission parts, being distributed from 13 different locations in the United States and Canada. We offer web services, engineering assistance and unbeatable centralized customer service!

Our philosophy is; Quality, Service, and Commitment!

MasterDrive has got you covered with:

- * Sheaves - Bored to Size, Variable Pitch, QD Style, TB Style, DST Style and Metric
- * Bushings - QD, TB, and DST Styles
- * Synchronous Pulleys - L & H Pitch and HTD
- * Couplings - Jaw Type and BCS
- * Step Pulleys
- * Weld-On Hubs
- * Belts - We offer a full line of V-Belts, both standard and metric, as well as synchronous belts

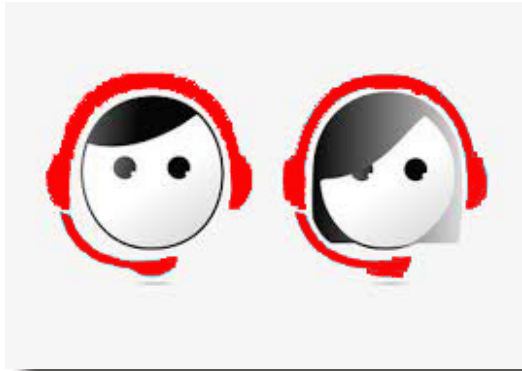

In addition to our full line of power transmission products, we offer foundry and machining options for all types of gray and ductile iron MTO items. **MasterDrive**, together with our foundry, offers complete manufacturing and engineering support.

MasterDrive's commitment to its distributors is second to none. We promise to serve and protect their customer base. In addition, our same commitment can be seen in the OEM marketplace. We are proud to serve such industries such as:

- HVAC/R
- Aggregate
- Wood Handling
- Power Generators/Engine
- Oil and Mining
- Agri. Equipment
- Air & Fluid Handling/Pumping
- Construction

Excellence in Customer Service sets MasterDrive apart from the competition

Our **Centralized Customer Service** and non-automated phone system guarantees that every time you call, you will be talking to one of our highly trained customer service representatives instead of being frustrated by computer prompts. Product training is always ongoing so our representatives can provide you with accurate technical support.

Authorized **MasterDrive** customers also gain access to our **MasterConnect** website, which is second to none! Features include a full online catalog, real time price and availability, ability to place orders online, accounts receivable information, shipping information and much more!

MASTERConnect

Even if you're not a **MasterDrive** customer, **MasterSelect** makes drive selection easy! Whether you have just the basic drive information or if you have specific types of products you would like to use, **MasterSelect** will provide you with up to 25 different options to choose from.

MasterDrive carries over 7,000 part numbers in stock and operates multiple regional warehouses for excellent product availability and minimum transit time and costs. We fill orders from stock and ship most the same day.
